EDUCATION

University of Oklahoma

Norman, OK

Bachelor's in Computer Science, Minor in Mathematics and Electrical and Computer Engineering Expected May 2028

GPA: 3.95/4.00

Honors: Awarded of Excellent Outstanding NRTW 2024–2028, Awarded of International Undergraduate NRTW 2024–2028, Post-Acceptance for Wesley R. Mote Endowed Engineering Scholarship, Undergraduate Research Opportunities Program (UROP) Scholarship (Spring and Fall 2026), Clyde J. Cecil Memorial Scholarship.

Paper: OUNLP at TSAR 2025 Shared Task: Multi-Round Text Simplifier via Code Generation

RELEVANT EXPERIENCE

Undergraduate Research Assistant

June 2025 – February 2026

Devon Energy Hall, University of Oklahoma

Norman, OK

- Built a Python-based sentence transformation pipeline to simplify text to target proficiency and linguistic complexity levels.
- Integrated external language models and designed prompt, candidate generation, selection, and evaluation logic.
- Extended OpenEvolve to improve built-in functions and prompts for large-scale experiments on the Wukong server.

Undergraduate Research Assistant

January 2026 – May 2026

Devon Energy Hall, University of Oklahoma

Norman, OK

- Used large language models (LLMs) to automate responsive web design generation.
- Developed a pipeline to generate responsive webpages from mobile, tablet, and desktop wireframe inputs.

Undergraduate Research Assistant

January 2026 – Present

Devon Energy Hall, University of Oklahoma

Norman, OK

- Built an AI-powered digital whiteboard using Excalidraw, React, and Socket.IO for math sketching, chat assistance, and collaboration.
- Integrated GPT-based math recognition by exporting sketches as images and displaying recognized expressions as LaTeX.
- Developed collaborative room features for participant tracking, scene synchronization, room sharing, and interaction history.

Student Programmer

February 2026 – May 2026

Kaufman Hall, University of Oklahoma

Norman, OK

- Applied HTML/CSS and C++ knowledge while adapting to C#, ASP.NET, SQL, and IIS.
- Used a CMS to maintain the school's website, ensuring timely content updates and improved usability.

Teaching Assistant – ENGR 1401

August 2026 – December 2026

Felgar Hall, University of Oklahoma

Norman, OK

- Held meetings and office hours to support students with course concepts, assignments, and projects.
- Graded student work and provided clear feedback to improve academic performance.
- Assisted the instructor with course organization, student communication, and progress tracking.

PROJECTS

BorrowIt! (Hacklahoma Web App)

February 7, 2026 – February 8, 2026

University of Oklahoma

Norman, OK

- Built a peer-to-peer marketplace for lending and borrowing items within a university campus.
- Developed the app with Next.js, React, Three.js, Firebase Auth/Firestore, and MongoDB.
- Implemented user authentication, item listing management, and trade history tracking.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS, React, Python, Java, C/C++

Technologies: Git, VS Code, Eclipse
